progress Weve delivered on our commitment by refurbishing a growing number of IT hardware units, (both professional and consumer) reaching 493,000 units in 2023, 504,570 in 2024 and 746,379 in 2025. At the same time, we have seen a 38 fall in our groups internal digital energy usage between 2022 and 2025. Econocom has therefore reduced its digital energy consumption for the ninth consecutive year . This decrease is mainly due to the combination of several new green IT measures implemented in 2025, in addition to those in previous years. In 2025, Econocom is continuing its efforts to reduce its digital carbon footprint by implementing recommendations from the previous year such as the extension of equipment usage phase or the reduction in electricity consumption on infrastructures. The trend towards teleworking has accelerated , with the number of employees benefiting from this option tripling from 30 in 2021 to 63 in 2022, 87 in 2023 and 88 in 2024. We hired 1795 people in 2025 as part of this drive. At the same time, the gender equality index in France rose from 86 to 89100, above the national average for companies with more than 1,000 employees. The percentage of disabled employees in France has been increased to 10 by 2022 . This represents a doubling in five years. Today it stands at 6.06 . In terms of professional development, 85 of our employees in France have taken cybersecurity and RDPD training . Our commitment to social responsibility and diversity has been recognised in prestigious league tables. We're proud to be one of the 250 most responsible companies in France (according to the 2022 and 2023 rankings compiled by Statista for Le Point). Were also ranked among the 850 European companies most committed to diversity and inclusion (according to Statista's 2023 ranking for the Financial Times). Weve continued to make progress with regard to our extra-financial assessment, recording an increase of 12 points to reach a score of 88100 on the EcoVadis rating . This result reflects the quality of our CSR management system. We were honoured to receive the Gold Medal, which recognises the 1 of companies rated as the most committed.
